

Explore Colby

October 19, 2026

7:45 - 9 a.m. | Check-In

8 - 9:50 a.m. | Campus Tours

Join a current Colby student for an in-depth guided tour around campus.

9 - 9:50 a.m. | Spotlight Classes

Take a seat and see college learning in action. These classes give you a snapshot of daily academics and how students and faculty connect.

More information on class options to come!

Admissions and Financial Aid Question and Answer Session

Join members of Colby College's Office of Admissions and Financial Aid for a forum dedicated to answering all of your admissions and financial aid questions.

10 - 10:50 a.m. | Student Support Panel and Fair

Learn from a variety of offices how Colby supports first-year students in their transition to college.

11 - 11:50 a.m. | Lunch in the Dining Hall

Have lunch on us with current Colby students in either Dana Hall or Roberts Hall.

12 - 12:50 p.m. | Alumni and Family Panel

Hear from Colby alumni and families of current Colby students about the multitude of opportunities available to students at our college and the campus community.

Spotlight Classes

Take a seat and see college learning in action. These classes give you a snapshot of daily academics and how students and faculty connect.

More information on class options to come!

Campus Tours

Join a current Colby student for an in-depth guided tour around campus.

2 - 2:50 p.m.

Centers, Labs, and Institutes Panel

Join us for a discussion with faculty and directors as they share how Colby's centers, institutes, and labs power research on campus and beyond. Learn how these hubs drive emerging programs and create unique opportunities for students.

3 - 3:50 p.m.

Student Panel and Club Fair

Hear about the Colby experience from those who live it and connect with student groups on campus at a club fair.

4 - 5 p.m.

Mock Admissions Committee

Moderated by members of the Colby Office of Admissions and Financial Aid, this session invites you to play the role of an admissions officer—review a mock application, ask questions, learn how to craft your strongest possible application.
